

The radio station K-Love serves me by playing positive music with talk that is encouraging for my whole family to listen to. alot of other stations I will not allow my children to listen to because of language or topic of conversation. If K-Love is taken off the airwaves, our community (being christian families) will have nothing else to listen to on the radio, and it will affect other people, by not being able to hear the encouraging words of God over the airwaves and maybe deciding to give their life to Christ. If K-Love is taken off the air because of changes in the way broadcasting is done it will be a great loss to the public who may have no other way of learning about God's love for them and what Christ did on the cross for them.
